Inter-Node Multi-GPU Performance Benchmarks

- Goal
  - Implement inter-node GPU-GPU communication benchmarks with CUDA-aware MPI in Julia
  - Assess inter-node multi-GPU performance of Noctua 2
  - Integrate your benchmarks into GPUInspector.jl
    - https://github.com/pc2/GPUInspector.jl

- Prerequisites
  - Interested in NVIDIA GPU programming (CUDA) and MPI
  - Basic knowledge of Julia is helpful (but not required)
